

SSA – RI BHOI DISTRICT

Sarva Shiksha Abhiyan is one of the Flagship Programmes of the Government of India jointly implemented with the State Government of Meghalaya for providing relevant, meaningful and quality education to all children in the age group of 6 – 14 years on a mission mode, with a view to provide access, equity and quality in education for all.

The implementation of Sarva Shiksha Abhiyan started in the year 2002-03. It provides a variety of interventions such as opening of new schools and alternate schooling facilities, construction of new school buildings and additional classrooms, toilets and drinking water, payment of textbooks, uniforms, inclusive education for the disabled children, enrolment and re-enrolment of out of school dropout children in collaboration with the active participation of the community and NGOs.

Purpose of inspection:- The intention of conducting physical inspection is mainly to get a correct information on the actual implementation of Sarva Shiksha Abhiyan and Mid Day Meal based on ground realities.

| 6. | Problems, if any: | Lack of drinking water facilities. |

OBSERVATION - SSA:

The main problem which the school is facing is the lack of drinking water facilities. Water is also required for toilet and preparation of mid day meal. Since the source of water is adjacent to the school, the school requires only water connection and construction of water tank for storing of water.

SUGGESTION:

The Managing Committee can solve the problem of water supply with SSA or PHE.

| 6. | Problems, if any: | i. Lack of drinking water facilities.
ii. Lack of additional school building and classrooms
iii. Lack of computer facilities for teachers
iv. Lack of additional teacher |

OBSERVATION - SSA:

During the interaction with the Headmistress it was informed that there are 28 households residing in the locality and the number of L.P students in this school is 27 Nos. Furthermore, this is the only L.P. School set up in this village. Therefore, there is a need to get all the necessary facilities provided for this school. The headmistress also expressed the need to have atleast one computer with printer for handling all official correspondences and also for typing of question papers. In respect of school grant the SSA has no longer provided cash assistance but instead provided assistance in the form of water filters, dustbins, attendance registers and teacher's registers starting from 2014.

SUGGESTION:

To solve the problem of drinking water supply the Managing Committee may seek assistance from SSA as water reservoir of the locality is very near to the school and only water connection is required. So also for additional building and computer facilities.

	l) Furniture provided if any:	Nil
	m) Computer facilities:	Nil
	n) School uniforms	Nil
6.	Problems, if any:	i. Lack of computer facilities ii. Late release of salary iii. Maintenance grant is very less iv. Need for additional classroom

OBSERVATION - SSA:

During interaction with the Headmaster, he informed that this school is in need of computer facilities as the school is having a qualified teacher with B.Sc in computer. As computer education is necessary to be introduced right from the U. P. level, the Headmaster wanted to retain

the qualified teacher in his school. Therefore, he insisted that the school needs to be provided with computer which can be availed from SSA. In respect of maintenance grant, he mentioned that the amount is too less to carry out the maintenance works of the school as it is not provided annually, but alternate years.

SUGGESTION:

To examine the possibility of getting computer facility from SSA. Proposal for enhancement of maintenance grant with proper justification may be submitted to SSA for consideration.

6.	Problems, if any:	i. Late release of salary ii. Lack of drinking water facility.

OBSERVATION - SSA:

It was learnt that facility like school uniform was also provided for the students but so far, the school has not yet availed this facility. For 2014 order for supply of uniform to the students in

the form of financial assistance has been issued by SSA but the same is yet to be collected by the secretary.

SUGGESTION:

Immediate collection of orders issued by SSA in connection with financial assistance for uniforms, etc. need to be entrusted on the Secretary/ etc. of the Managing Committee as delay in obtaining of order from SSA may result in cancellation and deprivation of assistance.

| | m) Computer facilities: | Nil |
| | n) School uniforms | Nil |
| 6. | Problems, if any: | i. Late supply of books.
ii. Lack of adequate number of teachers. |

OBSERVATION - SSA:

The school has been facing great problems in running the official works/correspondences pertaining to SSA facilities as the teachers are busy with their teaching activities. Moreover, only 2 teachers are there in the L.P School. During interaction the Head teacher emphasized very much the need of non-teaching assistance to look after the official works.

SUGGESTION:

The matter relating to the appointment of non-teaching assistance has to be arranged by the Managing Committee since there is no provision of this facility under SSA. However, the school may avail the facilities of getting financial assistance for school uniform from SSA.

| 6. | Problems, if any: | i. Lack of adequate number of teachers.
ii. Late release of salary.
iii. Low amount of Maintenance Grant.
iv. Lack of partition in the classrooms. |

OBSERVATION - SSA:

This L.P School is running classes from Pre-primary to class V with only 2 teachers appointed by SSA. It is further noted that students of 3 classes are sitting in one hall with no partition to make separate classroom. Moreover, the condition of the school building is also very bad due to poor construction. As informed by the head teacher the Maintenance Grant is also very less to make even little renovation to improve the condition.

SUGGESTION:

The Managing Committee need to contact the District Mission Coordinator for conducting immediate inspection of the building so as to assess the actual dilapidated condition and provide additional financial assistance for renovation and partition of classrooms.

	m) Computer facilities:	Nil
	n) School uniforms	Yet to be collected for 2014
6.	Problems, if any:	Lack of drinking water facility.

OBSERVATION - SSA:

The main problem faced by the school is the lack of water supply facilities for drinking and other purposes including toilet. The total enrolment of students is only 30 Nos. inspite of the fact that there are 130 households residing in the locality.

SUGGESTION:

The teachers have to make all out efforts to increase the enrolment by attracting students studying in the Government Lower Primary located in the same premises for proceeding to the Upper Primary classes. As regards the drinking water the Managing committee may approach the office of the PHE in Nongpoh for getting water supply.

| 6. | Problems, if any: | i. Lack of partition for classrooms.
ii. Lack of drinking water facilities.
iii. Lack of adequate number of teachers.
iv. Low amount of Maintenance Grant. |

OBSERVATION - SSA:

It was observed during the inspection that there is no proper attention by the students due to the lack of partition as 3 classes are sitting in one big room. The construction of the building is also of very poor quality and requires renovation. Moreover, only 2 teachers have to manage the class right from pre-primary to class IV. For drinking water purposes, students have to carry water from the source nearby.

SUGGESTION:

The Managing Committee may approach the office of PHE Nongpoh to get water connection since the source is just a little away from the school. For renovation and making of partitions the school may request the SSA authority to enhance the Maintenance Grant.

OBSERVATION – SSA:

The school building has been completed and is yet to be utilized. So far, the Upper Primary students were accommodated in the old building which requires immediate renovation. It is expected that the students will be shifted to the new building during the current year 2014. As no maintenance grant was provided to the school till 2014, therefore, no renovation works on the old building can be done. Moreover, the school requires computer facilities both for the teachers and the students. So also, facilities for providing school uniform to the students.

SUGGESTIONS:

The Managing Committee needs to approach the District Mission Coordinator for providing maintenance grant, computer facility and school uniforms.

OBSERVATION – SSA:

During interaction with the head teacher, she informed that SSA supply books on the same subjects every year, i.e., English and HPL. Therefore, students have to purchase by themselves books on other subjects as these are not provided by SSA.

SUGGESTION:

The Managing Committee may approach SSA authority for getting financial assistance to construct additional school building and making partition for separation of classrooms. As for fencing the school may find out assistance from other sources. So also for getting assistance for school uniforms for the students.

School Building and toilets constructed under SSA.
